L. P. FISHER, NEWSPAPER ADVERTISING AGENT, 21 Merchants' Exchange, San Francisco, is our authorized agent. This paper is kept on file in his office.

FOR PRESIDENT,

WILLIAM J. BRYAN,
OF NEBRASKA.

FOR VICE PRESIDENT,

ARTHUR SEWALL
OF MAINE.

THE METROPOLITAN PAPERS AND BRYAN.

Nearly all the metropolitan papers are subsidized by the gold trust or owned by syndicates, many of whose members are non-residents of the United States. They are, therefore, opposed to the restoration of silver as that would injure the business of their owners. We see the *Chronicle* and *Call* of San Francisco, both of which a few months ago advocated free coinage, now declare for the gold standard. Mr. DeYoung, the proprietor of the *Chronicle*, is a millionaire, as is also Mr. Spreckles, the proprietor of the *Call*. Both have political aspirations, and while they hoped that the Republican National Convention would straddle the financial question, they favored free coinage, and published many convincing arguments in favor of bimetalism. Since the St. Louis Convention, which was controlled by Boss Hanna, director general of the trusts, the *Call* and *Chronicle* have been endeavoring by appeals to partisan prejudices and other devices of the small politicians, to get their readers to support the gold standard candidates, but in Nevada, while they are making no converts, they are losing many subscribers.

In the East, the papers which pretended to be Democratic while upholding Clevelandism and the gold standard are now unmasking and opposing Bryan. The New York *Sun*, which a few years ago wanted the country placed upon a silver basis, and which never supported a Democratic candidate for President since 1876, has led the revolt against the Chicago platform. It has been followed by the *Herald*, whose proprietor, James Gordon Bennett, lives in London and Paris, and by the *Post*, which our Republican friends told us not very long ago, is owned by English capitalists.

These papers do not represent the views of the "common herd," as they disdainfully designate those not of their set. They are the organs of the gold brokers, the monopolies, and the syndicates, which favor the gold standard because it makes them richer, and their opposition to the platform on which Bryan was nominated, furnishes the best possible proof that they believe its principles to be in the interest of the masses of the people.

ILLINOIS FOR BRYAN.

Dr. Jamison, the Republican National Committeeman from Illinois, says that State is not in the Republican column to-day. The workmen are for Bryan and the farmers are for Bryan, and many contributions of one and two dollars have been received by Secretary Nelson of the Illinois Democratic Committee from workmen who gave their mites toward the success of Bryan and free coinage.

The tide of public sentiment not only in Illinois, but in all parts of the country, has set in strong for Bryan. He is recognized as the champion of the people, and the hope of Mr. Hanna and his associates is to turn the tide with money. The bondholders, the trusts, the syndicates and monopolies generally are expected to contribute liberally for this purpose and it is predicted that more money will be expended in this year of grace toward electing McKinley than ever before in a Presidential contest.

"What fools these mortals be" who imagine that these trusts and monopolies are putting up money for the benefit of the majority of the people. If they did not expect to gain by continuing the single standard they would not contribute a dollar to maintain it. Why are the farmers and workmen not only in Illinois, but in New York and in New England and in fact all over the country declaring for Bryan? For reasons directly opposite to those which the trusts advance for supporting McKinley. The farmers and working men find it difficult to make a living under gold rule, while the trusts and monopolies fatten under it. Illinois is a farming State and like all farming communities it feels the pressure of hard times and is going for the man and the principles that will bring relief.

REALLY ASTONISHING.

Judge Bigelow of the Supreme Court has issued another semi-political decision on the financial question. It is really astonishing that the Judge, in all the years in which he has been before the people for their suffrages and in every one of which the party with which he affiliates declared for free coinage, never incurred the risk of losing a vote by expressing his real sentiments. For fourteen or fifteen years the gentleman accepted nominations from a party which was professedly for free coinage at the ratio of 16 to 1, and endorsed the platform with as much apparent sincerity as the most enthusiastic believer in the restoration of silver. Judging by the reticence—some might call it hypocrisy—of the Judge in the past he would yet

be endorsing free coinage if men like Teller had been in the majority in the Republican National Convention. Many people have a distinct recollection of the distinguished gentleman approving the Republican platform of 1888 which condemned Cleveland's Administration for its efforts to demonetize silver, and the fact that "he never told his love" for gold until Mr. Hanna declared for it at St. Louis leaves the impression that if it had not been for that declaration the people would never know of Judge Bigelow's hostility to silver.

REPUDIATES THE GOLDBUGS.

The Walker Lake *Bulletin*, which has stuck to the Republican party through all these years, has declared for Bryan. It says "when the few Republicans drew out of the St. Louis convention it applauded the act for it construed the platform adopted there to be not only a violation of party faith and the direct sacrifice of a great principle, but it was an insolent defiance of the masses by the classes. This being its view it can see no other course to pursue, except to urge the election of Bryan for President."

TELEGRAPHIC NOTES.

A heavy storm at Pittsburg, Pennsylvania, damaged property to the extent of nearly a million dollars.

John W. Lanchard, a brother-in-law of Governor Altgeld of Illinois, died at Chicago yesterday of peritonitis.

David Frieland, a blacksmith, was instantly killed by the northbound passenger train at Selma, Cal., yesterday.

A storm at Cheyenne, Wyoming, flooded cellars and inundated the electric light works, so that the city was left in darkness.

The battleship Oregon was placed in commission yesterday. Her officers and crew are aboard and the United States flag was hoisted.

A cyclone swept through the Adirondacks, N. Y., between Fort Edward and Argyle, leveling barns and dwellings. No lives are reported lost.

Rev. Robert Lee, Miss Addie Tillman, a daughter of Senator Tillman, and another young lady, were killed by lightning at Bravard, North Carolina.

The steamer Columbia, which went on the rocks at Pigeon Point, Cal., is going to pieces. Everything movable has been taken out of the vessel, and what is left is ruined by water.

John Coyle, a pioneer of Fresno county, Cal., and a man of considerable means, was burned to death in his residence, which caught fire from some unknown cause, yesterday morning.

The San Francisco Grand Jury has written a letter to Assessor Siebe notifying him that their expert has discovered that he has assessed ten corporations \$11,000,000 less than what their assessment should be.

The thermometer has registered from 108 to 110 in the shade at Chico, California, for the past twelve days, and several persons have been prostrated by the heat. Work had to be suspended in the afternoon in consequence of the heat.

The Ohio State Silver Convention met at Toledo yesterday. Three-fourths of the delegates had been identified with the Republican party, and a majority of the delegates to St. Louis will be old time Republicans who have left the party.

Ex-Governor Russell of Massachusetts was found dead yesterday morning in a fishing camp at St. Adelaide, Quebec. He passed through Montreal to the salmon grounds apparently in good health. It is thought that he died of heart disease.

A discharged negro employe, named John Phillips, attacked Ed Corrigan, the horseman, with a knife at his stabler, at Latonia, Ohio, yesterday. Corrigan defended himself with an umbrella, but was cut near the elbow. Phillips escaped.

The band with Buffalo Bill's Wild West show drove in a high chariot under the Pennsylvania railroad bridge at Canton, Ohio, yesterday. The men's heads struck the bridge, they were knocked out of the chariot, and five or six of them killed.

A Silver Convention was held at Lansing, Mich., yesterday to send delegates to the St. Louis Convention. Ex-Congressman Richards announced that steps would be taken to organize a Silver party, and a committee of sixteen was appointed to report a plan of organization.

News has reached Pikeville, Kentucky, of the hanging of Mary Snodgrass at Cosburn, Va., for the murder of her six-months' old child. She was a desperate character. She tried to get rid of the child in various ways, but the county judge told her she would have to provide for it. One night the neighbors heard the child screaming and saw dense smoke issuing from the chimney. They burst in the door and discovered that the mother had placed the child in the fire and was holding it in the blaze with a long iron hook.

Viavi.

Viavi is more of a food than a medicine. I should be glad to have those who do not understand its use, call and get a Health Book free and read the home testimonials. Viavi sales in 1895 exceeded those in 1894 by half a million dollars. Mrs. B. E. HUNTER, Fourth Street.

Cheap Footwear.

Now is the time to secure cheap shoes at cost. Russell Brothers are closing out some of their lines of shoes, and will dispose of them at a bargain. Call and make your selection at once. 5-2714

A HISTORIC CANNON.

Was in the Mexican War and is Now Used as a Curbstone-Fender.

Almost the only relic in existence of the battery that was established in this city during the Mexican war is an old cannon that is at present doing duty as a curbstone fender. At the time the battery was constructed it was on the edge of the bay and near where the corner of Broadway and Sansome street now is.

When peace was declared, the battery was dismantled and the material of any use was carried away. For some reason one cannon was left behind, carriage and all. There appeared to be nothing the matter with it, and it was even used several times to fire Fourth of July salutes.

As the years went by the carriage was moved away and remained lying on the ground for a time. When Battery street was cut through, it received its name from the old fort, and the cannon was rolled down to the edge of the curb as a reminder of the old days.

How long it lay there is a question that nobody can answer, for those who might have done so are all dead. At any rate it is known that a patriotic dandy concluded that the cannon should be taken care of. He got a number of volunteers, and when the curbstone was put in the crowd carried it to the corner and poked its muzzle down into a hole. It has remained there ever since.—San Francisco Call.

Typhoid Fever and Bananas.

William C. Usary, M. D., of St. Louis says that the best food for those suffering from typhoid fever is the banana. In this disease, he explains, the lining membrane of the small intestine becomes intensely inflamed and engorged. Eventually it begins sloughing away in spots, leaving well defined ulcers. At these places the intestinal walls become dangerously thin. A solid food, if taken into the stomach, is likely to produce perforation of the intestine and the results will follow. Therefore solid foods or foods containing a large amount of nutritious substances, as compared with nutritious substances, are dangerous and are to be avoided. The banana, although it may be classed as a solid food, containing as it does 85 per cent nutrition, does not possess sufficient waste to irritate these sore spots. Nearly the whole amount taken into the stomach is absorbed and gives the patient more strength than can be obtained from other food.—New York Tribune.

Trying Ordeals For Presidents.

In writing of the pardoning power invested in the president, Hon. Benjamin Harrison says in *The Ladies' Home Journal*: "The papers in these murder cases are usually voluminous—a full record or an abstract of the evidence making part. If the trial seems to have been fairly conducted and no new exculpatory evidence is produced, and the sentence does not seem to have been unduly severe, the president refuses to interfere. He cannot weigh the evidence as well as the judge and jury. They saw and heard the witnesses, and he has only a written before him. It happens sometimes that the wife or mother of the condemned man comes in person to plead for mercy, and I know of no more trying ordeal than to hear their tearful and sobbing utterances and to feel that a public duty requires that they be denied their prayer."

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists. If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed, everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

BRYAN AT HOME.

He Talks to Old Friends in His Native Town.

Mr. and Mrs. Bryan are visiting old friends in Illinois before returning to their home in Lincoln, Nebraska. The residence of Captain Dwight at Centralia, where the Bryans were visitors, was besieged by crowds who came on special trains from the adjacent towns. In response to cries from the crowd, Mr. Bryan mounted an improvised stand and said:

"Ladies and gentlemen: I do not come to make a speech. The campaign is hardly opened yet, but coming back to Marion county to attend to some business which had to be looked after before I returned to Nebraska I was glad to accept an invitation to spend two or three hours with my relatives in this city, and while here to meet again the citizens whom I met before."

"We are entering upon a memorable campaign and the issues are being drawn for the contest. The two parties described as the two great parties, or the two leading parties, have already adopted their platforms and named their candidates. In a short time you will make your minds up as to which platform and which ticket you will support."

"I trust that the issue in this campaign will be clearly understood and carefully studied. Parties are not made to be worshipped. People are not made for the parties, parties are made for the people, and parties can only claim the support of the people when they are efficient instruments in the hands of the people for accomplishing good. Those who are called upon to vote have a right to consider the platform utterances of the parties advocated by the various parties, as well as the candidates who are nominated."

"In this campaign I believe that there will be less of personality and more of principle than in any campaign which we have seen in recent years. The people have before them two great questions. We must not expect that any platform will contain all that you desire. No thinking person finds in any platform an expression of everything he believes, nor must we expect that any platform will be free from some objection. We select our party and our platform, not in the hope of finding something which is absolutely in accord with our opinions, but which promises to use the best legislation on the most important questions, and it is decided on all sides that the important issue is the money question. It matters not whether you believe in the restoration of silver or the gold standard you must admit that the settlement of the money question is of the first importance—one that when once settled leaves nothing else to be decided."

"On the money question the two great parties have taken position directly opposed to each other. Four years ago the positions taken were almost identical. The Republican party said the people were in favor of bimetalism and the Democratic party was holding to the use of gold and silver as standard money and to the coinage of both. Thus you see that both parties declared in favor of gold and silver as the money of our country. The four years that have passed since that platform was written have been full of momentous happenings and as this campaign approached the great parties lined up for the fray."

"Upon this question the party at St. Louis declared for the maintenance of the gold standard, but that platform does not say that the gold standard is a good thing, because the platform pledged the party to get rid of the gold standard, but declared that this change could not be made except by international agreement. The Democratic party met at Chicago and adopted the platform, which is in direct opposition to the platform adopted at St. Louis."

"The St. Louis convention declared for the maintenance of the gold standard until something else could be done in the near future. But more than that, the Republican platform did not promise any complete monetary system."

"The Democratic party outlined what it desired to have done and declared that the silver dollar should be full legal tender for all debts, public and private, and that such legislation should be enacted as is necessary to the restoration of the unlimited coinage of silver and gold at the present ratio of 16 to 1, without waiting for the aid of any other nation. We also declare that silver dollars should be full legal tender for all debts, public and private, and that such legislation should be enacted as is necessary to prevent for the future the demonetization of any legal tender."

"The platform declared that the Government should exercise the right to redeem its obligations in both gold and silver. The issue is drawn and we have our choice in this campaign between an American financial system for the American people and an English financial system for the English people."

"If I mistake not the patriotism of a people who have never been appealed to in vain there can be but one issue in this campaign and but one result. If they ask us what about other questions we tell them that so long as the right of self-government is in danger there is no other question. Why discuss questions on which we have not the power to decide?"

"I want to impress upon your minds two things; I want to ask you two questions. They are questions that will be asked over and over again in this campaign. They are questions that will be asked with ever increasing emphasis. If the gold standard is a good thing, why should we try to get rid of it? If the gold standard is a bad thing, why should we wait until some other nation is willing to help us let go?"

Three kinds of beer, take your choice—Lemp's Pabst or Wieland's. Rich milk punches, Napa soda lemonades and all other cool and refreshing drinks prepared and served by experienced mixers at Henry Ritter's. The jobbing trade a specialty.

New guests at the Hotel Reno last night were as follows: D. B. Birdall and W. S. Bellmer, San Francisco; W. J. Westerfield and wife, Carson; G. G. Tully, Virginia; C. Wadsworth and Wm. Pearson, Wadsworth; Sam Davis and Mrs. H. H. Hutton, Carson; and A. J. Buckland, Wadsworth.

Highest of all in Leavening Power.—Latest U. S. Govt. Report.

Royal Baking Powder

ABSOLUTELY PURE

"We care not upon what issue they force the fight. We are prepared to meet them on either issue or both. I thank you, friends, for the interest which you have manifested and for the compliment which you have paid to us by your assemblage here to-day."

"I can but beg of you that you will remember your duty as citizens. We stand on the platform adopted at Chicago and do not come to you as supplicants to beg your votes. Your votes are your own and no man is asked to do anything save as his conscience dictates. And we beg you to study all the questions presented, study all the issues involved, and then let your pledge register a freeman's will."

Populists East-bound.

A special Pullman on last evening's east-bound train carried twenty-nine of the California delegates en route to the Populist convention which will meet at St. Louis on the 22d. E. M. Wardell of Moravia, Los Angeles county, Chairman of the delegation, was on the train and stated to a Journal reporter that the California delegation was in favor of the free and unlimited coinage of silver at the ratio of 16 to 1, and that as far as the California delegation was concerned it was hoped that such action would be taken by the two conventions at St. Louis as would insure relief to the people. He said that no one could tell what would be done yet as far as a Presidential nominee was concerned, but that it was probable that the two conventions would confer and select a good man. When asked if it would be Bryan, he replied that it might be, but of course was not pretending to give the feeling of his delegation at this time. He continued, saying that in the conference between the conventions, the Populists would be willing to make many concessions, but could not give up everything. They proposed to maintain their party organization and would not under any circumstances allow themselves to be set aside or a wallowed up by another party. If, when the time came they considered Bryan a man worthy of their support they would nominate him in convention and name him as their standard bearer.

He claims the Populists are much stronger than is generally supposed and that in a number of States they will sweep everything. The delegation seemed to be composed of sturdy men. There was no great display. Each delegate wore a small badge and there was no "hurrah," but all seemed determined in accomplishing the greatest good to the greatest number.

The delegation is composed of thirty-nine members, ten of whom went to St. Louis by the southern route.

A Delightful Party.

Mr. and Mrs. Chas. Lake entertained a large number of their friends at a lawn party, given on the grounds of the Lake Mansion last evening. The grounds were prettily illuminated with Japanese lanterns and the mansion was decorated for the occasion.

Three four-in-hand rigs arrived from Virginia at an early hour loaded with young people, and the evening was spent in delightful conversation, games, music and dancing on the lawn. Hastings' superb band, of which Mr. Lake is a member, was present and added greatly to the pleasure of the evening. Elegant refreshments were served at midnight and the Virginia guests soon after left for home. All voted Mr. and Mrs. Lake royal entertainers and the evening as a whole will remain among the pleasant reminiscences of all present.

Reno Wheelmen Will Act as Part of the "Examiner" Overland Relay.

The Reno Wheelmen will take charge of the Examiner relay between Truckee and Winnemucca. The division will be under the superintendency of Al. Helms of Reno. The relay will start from San Francisco on the 20th of August, bearing a message from Mayor Suizo of that city to General Miles at Washington. About twenty-two hours have been allotted to the boys to make the run from Truckee to Winnemucca, but they are confident that they will not require that much time. It is expected that the run across the continent will be made in less than twelve days.

Mining Patent.

Captain A. D. Griffin has received a patent for the Trinity G. S. M. & M. Co. for the Paymaster mine and will site in Peavine mining district in this county. It is probable from the present outlook that silver mines will again become valuable property in Nevada.

A Schoolmate of Bryan's.

Judge Mack of the First District Court, and W. J. Bryan are old school mates. "Mr. Bryan graduated from the Northwestern University at Evanston, Illinois, when I was in the Freshman class," said the Judge, "and he was the brightest member of the class of that year."

Attention, Democrats!

There will be a meeting of the Democratic County Central Committee at Thompson's Hall on Friday evening, July 17, 1896, at 8 o'clock. Business of importance will be transacted.

JOHN H. DENNIS, Chairman.

THE SILVER DELEGATES

"No Crown of Thorns, No Cross of Gold." A Pullman car was set out here, yesterday and was properly equipped and decorated, and this morning will be occupied by the Nevada delegates to the National Bi-Metallic Convention, that convenes at Chicago on the 22d inst.

The car has a streamer on each side, running from end to end, bearing the device: "Nevada Delegation; Free Coinage and Prosperity. 'No Crown of Thorns, No Cross of Gold.'"

On the ends of each streamer the Great Seal of Nevada is painted in colors. The work is by John Pugh and F. O. Updike and is not only attractive, but appropriate.

J. G. McCarthy, S. P. Davis, M. S. Bonfield, M. Scheline, W. J. Westerfield, J. F. Dennis will start from this point by this morning's train and Hon. W. H. A. Pike from Wadsworth, Hon. Geo. S. Nixon from Winnemucca and other delegates from eastern points in Nevada will join them on route.

Several ladies, among whom are Mrs. Westerfield and Mrs. Bonfield, will accompany the delegation.

The car will go clear through to St. Louis, but it is probable that the members of the party will return at their pleasure.

Change of Firm.

Geo. Sauer, late of Washoe City and Fred Grob have succeeded to the butchering business of J. A. Holcomb at the Truckee Market. The new firm will endeavor, as far as possible to sustain the good reputation so long held by this pioneer market, and will try to merit an increase of patronage by the choice meats and butchers' novelties they will have on sale. Mr. Grob was formerly connected with the market and is well acquainted with the needs of all patrons. The business will be under the personal supervision of the two proprietors and no pains will be spared to give the best of service in their line.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison, Headache, indigestion, constipation, dizziness, yield to Electric Bitters. Fifty cents and \$1 per bottle at S. J. Hodgkinson's drug store.

District Court.

The contest case of Pinner vs. Jamison was set for the 23d instant, and the case of Battini and Caputo for illegal voting was postponed till Saturday at 9 o'clock, when the demurrer will be argued.

The case of the State vs. Frank Marona was concluded yesterday afternoon, and the jury after being out for an hour or two, returned a verdict of "not guilty" and the defendant was discharged.

THE FIRST CARRIAGE IN MAINE.

How a Minister Came to Buy It and Why He Sold It.

The Rev. Francis Winter was a native of Boston and a graduate of Harvard college. He went to Bath early in 1767, and after preaching on probation for the Orthodox church was invited to settle, which invitation he accepted. He was ordained in the autumn of the same year. He went to Bath on horseback in company with Lemuel Standish. Mr. Winter came from Boston, where he had associated with such eminent men as Adams, Otis and Warren, himself becoming an ardent patriot, taking the lead in the Revolutionary measures adopted in Bath during that memorable period.

Mr. Winter married Miss Abigail Alden in 1788, and it is through her that the Winters of today trace their ancestry back to the "Puritan Maiden of Plymouth."

Three years after the marriage of the Rev. Francis Winter and Abigail Alden they started to visit a sister of Mrs. Winter, living in Connecticut, and intended to ride all the way on horseback, but Mrs. Winter became so fatigued that Mr. Winter sold one of the horses for a carriage and harness. It was the first carriage that ever came into Maine and was called a chaise. Traveling was so difficult that two negroes were employed to accompany them with shovels and axes to clear the road. Several times the chaise had to be taken apart and lifted over fallen trees. The minister's parishioners thought that it was putting on too much style for their pastor to ride in a carriage, and in consequence Mr. Winter sold it. This was in 1771. It was a two wheeled chaise, the body resting on leather rollers, which were attached to wooden wheels. —Boston Journal.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Diamondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at S. J. Hodgkinson's drug store. Regular size, 50 cts. and \$1.
